

Installing ArcGIS Desktop – Single Use License

With ArcGIS Desktop Single Use License, core products and extensions are authorized locally on the end-user machine.

Install ArcGIS Desktop

Before installing ArcGIS Desktop, verify that your computer meets the system requirements.

- 1. Launch the ArcGIS Desktop setup by clicking setup.exe from the installation program.
- 2. During the installation, read the license agreement and accept it, or exit if you do not agree with the terms.
- 3. The setup program provides an option for a Complete installation, which installs the applications, style files, templates, and optionally licensed extensions. The Custom installation option allows you to choose specific installation components.
- 4. The installation location will be identified in this dialog box or in the custom dialog box, if a custom option was selected.

GEODATA SYSTEMS TECHNOLOGIES, INC. 19/F Strata 100 Building, F. Ortigas Jr. Road, Ortigas Center Brgy. San Antonio, 1605 Pasig City, Metro Manila Tel. No. +632 637-4449 Fax No. +632 633-6873 Email: <u>marketing@geodata.com.ph</u>

- 5. If Python is selected for installation, you must choose the installation location or select the default.
- 6. When the setup is complete, the ArcGIS Administrator Wizard is displayed, allowing you to configure a Single Use authorization.

Authorize ArcGIS Desktop License

1. In the ArcGIS Administrator wizard, select your ArcGIS Desktop product, click Authorize Now.
